

telehook

The Telehook ceiling mounts offer an ideal solution for retail applications, entertainment and sport venues, clubs and mass transport facilities such as airports. The ceiling mounts are specifically designed to satisfy the digital signage and commercial applications where mounting flexibility is paramount and space limited.

The ceiling mounts are designed to support both small and large displays and are very easy to install. Once installed, you're guaranteed a clean and professional finish by fully internal cable management, a dress cover to hide the ceiling connection and a clean pole without screw holes. The Telehook ceiling mounts include enhanced security features that improve the security of public installs.

Ergonomic Solutions is one of Europe's leading manufacturers and suppliers of technology mounting solutions. We prioritise safety and usability and our products and complementary services offer our clients a complete package that includes successful technology integration and guarantees customer satisfaction.
